

Are You Reading Arch MI's HaMMR?

It's an Arch MI exclusive – one of the industry's best reports on where housing markets are heading, regionally and nationwide.

Released quarterly, Arch MI's *Housing and Mortgage Market Review*[®], or HaMMRSM, presents deep-dive analysis of the key data affecting home prices, highlighting trends, identifying challenges and explaining anomalies.

Authored by [Ralph DeFranco](#), Global Chief Economist for Arch Capital Services Inc., HaMMR is the go-to resource for mortgage leaders, risk management experts and the national media.

Each Issue Features:

- **Headline stories** focusing on the current state of housing markets.
- **Special features** exploring regional issues.
- **The Arch MI Risk Index**[®], which addresses the probability that home prices will be lower in two years, on both the state and MSA level. This index is based on a statistical model using local economic and housing market data, such as affordability, unemployment rates, housing starts, foreclosure rates and other key statistics.
